## Experience

---

**Front-End Developer**, re:soft July 2024 – March 2025

- Gained substantial experience working on real-time projects in collaboration with other developers and designers.
- Contributed to the development of the re:educate student page.

**Front-End Developer**, Doer January 2025 – August 2025

- Developed and maintained front-end features for various projects, collaborating closely with designers and back-end developers.
- Improved user experience and performance optimization through modern front-end technologies.

**Front-End Developer**, Avodah Creatives September 2025 – Present

- Avodah Creatives is an Amsterdam-based company that provides a complete range of marketing services — helping brands enhance their presence through design, development, and creative strategy.
- Currently contributing to the development of the company's main website, focusing on delivering a modern, performant, and visually engaging user experience.

## Projects

---

**TeamUp** TeamUp.vercel

- A responsive platform where people can easily find and connect with potential team members. I'm currently working on this project, so please allow some time when interacting with the server side, as responses might take a little longer.
- Stack: Next.js, TypeScript, Tailwind, Framer Motion, i18n

**audiophile** Audiophile.vercel

- A responsive e-commerce platform for premium audio equipment with a user-friendly interface.
- Stack: React, TypeScript, Tailwind, Framer Motion

**devLink** devLink.vercel

- A responsive full-stack application for creating and sharing personalized profile links with a seamless user experience.
- Stack: React, TypeScript, Tailwind, Framer Motion, Nest.js, AWS, JWT

**Quiz app** Quiz app.vercel

- A responsive multiple-choice quiz with real-time score tracking and a clean design.
- Stack: Next.js, TypeScript, Tailwind.css

**Learners** Learners.vercel

- A platform focused on empowering individuals through educational resources and insights.
- Stack: Next.js, TypeScript, Tailwind, Framer Motion

## Education

---

**re:educate** Nov 2023 – Sept 2024

- **Coursework:** Focused on creating pixel-perfect designs while writing clean, maintainable code following best practices. Built projects using various modern technologies.

• **Akaki Tsereteli State University** 2020 – Present  
Bachelor's in Computer Science

## **Technologies**

---

**Front-End:** HTML, CSS, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS, Framer motion

**Back-End:** Node.js, Express, Nest.js, MongoDB, AWS S3

**APIs:** GraphQL, RESTful APIs

**Tools:** Git, GitHub, GitLab, Figma, Postman, Docker, Visual Studio Code
